

High quality finishes
for Glass decoration

Materials that meet
your aesthetic aspirations,
performance demands
and budget realities.

Innovating beautiful yet practical
products that meet the diverse needs
of designers, architects, building owners
and operators, contractors
and other professionals.

Every surface becomes a potential project in which you can use
3M AMD solutions to refurbish and redesign the space.

3M offers a wide range of creative options for decorating glass with surprising effects that can be customised as required, to suit the tastes of each customer. In addition to providing a high-quality end result, these films are easy to adapt, apply and maintain.

Durability

3M expertise in adhesives ensures of fast, accurate, beautiful and durable application to a variety of glass substrates.

Flexibility

Perfect for indoor or outdoor application. Works on flat or curved surfaces.

The material itself is amazingly flexible and easy to apply.

Product can be removed and reapplied if brands or design changes.

Budget-friendly

You get the beauty, translucency and privacy of etched, cut, sandblasted or texturized decorative glass at a fraction of the price.

Applying Fasara and Crystal glass finishes directly to glass saves time and money, and makes the project go fast and easy. It can be applied on-site with little or no business downtime.

Application area's

The areas of use of 3M Glass Decorative Films are unlimited:

- Offices, banks and agencies
- Shopping malls, shop windows and showrooms
- Hotels, restaurants, bars and other public places
- Wellness, spa centers and verandas

The films can be applied on glass door, glass wardrobe, mirror, lobby, staircase, windows, partitions...

Our Solutions

The Subtlety of Gradations

Fasara Illumina

3M Fasara - Gradation patterns

These 3M Fasara films transition from fully opaque white to clear over the full roll width, thanks to a varying density of pixels.

Perfect for areas where you need high level light but total privacy.

Some of them can be combined together to create unique visual effects.

Fasara Lattice

3M Fasara - Border & Horizontal patterns

Horizontal bands of various sizes displayed in an elegant way to screen out the passage of light.

The Leise pattern, in particular, offers a nice, subtle haze effect.

Fasara Luce

3M Fasara - Frost & Mat patterns

These patterns are designed to break up the light and give a very soft warm feel to interiors and exteriors. The frosted patterns recreate with efficiency the aspect of a frosted glass. They partially or totally obscure the view but allow light transmission. The Mat Crystal 2 and Milky Crystal patterns have been developed for exterior applications.
